Samuel Kufre Daniel

Senior UI/UX Designer

kufreysamuel@gmail.com +234 806 197 4291 Lagos, Nigeria behance.net/kufrey linkedin.com/in/samuel-daniel

PROFESSIONAL SUMMARY

Product Designer with 5+ years of experience owning end-to-end design for live, customer-facing digital products across e-commerce, insurance, fintech, and SaaS. Led the full rebuild of Losode, a live fashion marketplace; about 70% more designers onboarded after the rebuild. At Rex Insurance, redesigned the public website's policy purchase flow, increasing completed transactions by 30% and cutting drop-off by 25%, and designed an API gateway that cut partner onboarding to under 3 minutes. Skilled in user research, interaction design, design systems, and WCAG-compliant accessibility, with a track record of translating business and technical constraints into measurable product outcomes.

CORE SKILLS

End-to-End Product Design • UX Research & Usability Testing • Interaction Design • Design Systems at Scale • Information Architecture • User Journey Mapping • High-Fidelity Prototyping • WCAG 2.1 Accessibility • Data-Informed Design • Cross-Functional Collaboration • Stakeholder Presentation • Web & Mobile Design

TOOLS & TECHNOLOGIES

Research & Analytics: Hotjar, Google Analytics, Usability Testing
AI & Automation: Claude (Anthropic), ChatGPT, n8n, Gemini, Eleven Labs
Collaboration: Jira, Notion, Linear, Slack, Confluence, Trello, Google Workspace

PROFESSIONAL EXPERIENCE

UI/UX Designer | Losode — Aug 2022 – Nov 2024
Lagos, Nigeria

- Owned end-to-end design for losode.com, a live e-commerce marketplace, rebuilding the full web and mobile experience from research through final UI. About 70% more designers onboarded after the rebuild, each into a templated storefront.
- Redesigned product listings, checkout flows, and vendor dashboards based on usability testing and behavioral data, directly improving conversion and task completion for live users.
- Built and scaled a design system aligned to brand identity, reducing design-to-development handoff time and enabling faster feature delivery across the product team.
- Designed internal portals and management dashboards that streamlined back-office operations, partnering directly with PMs, engineers, and business stakeholders to ship solutions across multiple product areas.
- Presented design rationale and research findings to stakeholders and leadership to align product direction.

UI/UX Designer | Techaven — Nov 2024 – May 2025
Lagos, Nigeria

- Led the full redesign of a live mobile betting app, covering onboarding, the home dashboard, bet placement and live results, simplifying the core betting and account flows.
- Built wireframes and high-fidelity interactive prototypes for usability testing and developer handoff, establishing a cohesive design language and interaction pattern library across the product.
- Wrote UX copy and microcopy for onboarding, error, and empty states to reduce user confusion, working cross-functionally with PMs and engineers in a fast-paced sprint environment.

Product Designer | Rex Insurance — May 2025 – Present
Lagos, Nigeria

- Lead end-to-end design of the Rex Insurance mobile app (onboarding, policy purchase, claims, account management) and the public website redesign, for a live enterprise and retail customer base.
- Simplified the policy purchase flow on the public website by merging steps and removing friction points, increasing completed transactions by 30% and reducing drop-off by 25% (Google Analytics, last month of the old site vs first month after launch).
- Designed a multi-portal API gateway (admin and partner portals) that cut partner onboarding to under 3 minutes, with 5+ partners live. Currently lead design of a Broker Portal for policy, client and commission management.
- Built the RSM Appraisal Portal for HR, used to manage and track Regional Sales Manager performance reviews.
- Built and maintain a modular design system with engineering and applied WCAG 2.1 accessibility standards across product screens to meet enterprise and regulatory requirements.

EDUCATION

B.Sc Geography, University of Lagos (UNILAG) — 2018
