PROFESSIONAL SUMMARY

Product Designer with 4+ years of experience building enterprise-grade digital products across insurance, fintech, and SaaS platforms. Specialist in API gateway design, complex dashboard architecture, and streamlining high-stakes workflows for enterprise clients, with proven results including a 30% increase in completed transactions and a 25% reduction in user drop-off. Skilled in end-to-end product design: user research, interaction design, design systems, and WCAG-compliant accessibility. Brings a rare combination of deep UX expertise.

Collaboration: Jira, Notion, Linear, Slack, Confluence, Trello, Google Workspace

PROFESSIONAL EXPERIENCE

Product Designer | Rex Insurance | Lagos, Nigeria

May 2025 – Present

- Led end-to-end design of the Rex Insurance mobile app, covering onboarding, policy purchase, claims, and account management flows.
- Designed the Rex Insurance public website redesign (in progress), focused on improving brand credibility and conversion.
- Designed a multi-portal API Gateway platform that streamlined onboarding for enterprise partners, improving integration efficiency across broker, partner, and admin ecosystems.

- Built an internal RSM Appraisal Platform for HR to manage and track Regional Sales Manager performance reviews, improving appraisal completion rates and process transparency.
- Built a contract staff onboarding platform using Kissflow (low-code), enabling contract employees to register, complete documentation, and access onboarding tasks digitally.
- Currently designing a Broker Portal for insurance brokers to manage policies, clients, and commissions.
- Simplified end-to-end policy purchase and claims workflows, increasing completed transactions by 30%.
- Redesigned critical customer touchpoints across the funnel, reducing user drop-off by 25%.
- Collaborated with engineering teams to build a modular design system that reduced design-to-development turnaround time.
- Applied WCAG 2.1 accessibility standards across product screens, ensuring compliance for enterprise and regulatory requirements.

UI/UX Designer | Techaven | Lagos, Nigeria

Nov 2024 – May 2025

- Led full redesign of a mobile betting application, covering onboarding flows, home dashboard, bet placement, and live results screens, improving task completion rates by 40%.
- Developed wireframes and high-fidelity interactive prototypes for usability testing sessions and developer handoff.
- Improved visual consistency and interaction patterns across product interfaces, establishing a cohesive design language.
- Contributed UX writing and microcopy for onboarding screens, error states, and empty states to reduce user confusion.
- Collaborated cross-functionally with PMs and engineers in a fast-paced sprint environment.

UI/UX Designer | Losode | Lagos, Nigeria

Aug 2022 – Nov 2024

- Rebuilt Losode's entire e-commerce marketplace (losode.com) from the ground up, redesigning the full web and mobile experience to improve user retention by 25%, covering product listings, checkout flows, vendor dashboards, and brand identity.
- Established a scalable design system aligned with brand identity, enabling faster feature delivery across the product team.
- Designed internal portals and management dashboards that streamlined operational workflows for the back-office team.
- Worked closely with product managers, engineers, and business stakeholders to ship user-centred solutions across multiple product areas.

EDUCATION

B.Sc Geography | University of Lagos (UNILAG) | 2022
